

**Ensure Team Knowledge to Maximize Technology Investments**

Offering formal classroom instruction with full lab access, or on-site worldwide, Nova Datacom, under the direction of industry veteran and Quad CCIE and CCDE, Scott Morris, offers a variety of training curriculums to satisfy a broad range of requirements. Our instructors maintain a wide area of expertise to best present information as it relates to specific customer environments. Combining this deep knowledge with the ability to operate classified and unclassified environments allows our team to be even more effective at conducting training sessions that address specific security concerns, current vulnerability gaps, and pressing mission critical requirements- conveniently located where our customers need it most.

**Three Training Offerings**

**Instructor-led Training**

As an authorized learning partner, Nova Datacom will be providing a full curriculum of classes open to the public focused on the professional to expert level student. Current offerings include:

- ▣ Cisco360 (CCIE) Routing & Switching Bootcamp
- ▣ Cisco Certified Network Professional
- ▣ Cisco CCNP Security

Additional classes will be added to this roster as the program continues to grow. Further specialization into additional technology areas, such as the data center, is currently underway.

**Self-Paced Training**

Aimed at the student on the go, Nova Datacom has developed a collection of learning partner authorized training modules that can be accessed via a variety of web-based platforms. Instruction is at the student’s own pace, through multiple subscription options, and offers access to supplemental training, lab materials and hands-on access to equipment. Our current curriculum includes:

- ▣ CompTIA Network +
- ▣ CompTIA Security +
- ▣ Cisco CCENT, CCNA, & CCNP

**Custom/On-site Training**

With expert-level veteran instructors offering unparalleled course delivery in both classified and non classified environments, Nova Datacom can provide a customized training program in a location that maximizes your training dollars. Whether on-site, or remote, Nova Datacom’s enterprise-level training is consistently strong; we implement what we train and we train what we’ve experienced.
